DETAILED ACTION

1. Claims 1-5, 7-11, 13-20, 22-29, and 31-33 are allowed.

2. The following is an Examiner's Statement of Reasons for Allowance:

In interpreting the claims, in light of the specification and the applicant's amendments filed 6/16/2005, the Examiner finds the claimed invention to be patentably distinct from the prior art of record. The prior art does not teach all of the limitations of the independent claims in combination with the other elements presented.

The prior art of record teaches a network system where all components are probed to identify, register, and validate changes to the configuration, and a network system where configuration information is downloaded to each device on the network.

However, as per independent claims 1, 10, 17, and 25, the prior art and combinations thereof fails to teach the combined limitations of validating configuration information according to a schema while the information is being input, and notification of component changes from a listener based on registered requests by the components to be notified of changes. This combination of limitations differentiates the claimed invention from the prior art.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nicholas Taylor whose telephone number is (571) 272-3889. The examiner can normally be reached on Monday-Friday, 8:00am to 5:30pm, with alternating Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Rupal Dharia can be reached on (571) 272-3880. The fax phone number for the organization where this application or proceeding is assigned is (703) 305-3718.
